← Downloading the Safariland Catalog and Assortment Builder

To download the catalog input the reference below into aWorkbook.

SLAND-13386

There will be a pause while it connects to our server. When data is downloaded and installed, you will be able to click the cover and enter the catalogue.

If you can not access your digital catalog for any reason, first check that you are logged in by checking your profile button icon is green.

► Updates

aWorkbook checks for updates whenever you are connected to the internet. Throughout the season a blue 'Update' bar will appear underneath your catalog cover. We recommend you click this button to download the update and ensure your product range is up-to-date. If you are running the catalogue when an update is released you will see a blue highlight next to the 'catalogues' icon in the top navigation.
